Attention: Charles Whyte

Gentlemen:

This is to acknowledge receipt of your notice of intention to drill Well No. Whyte-Federal #1, which is to be located 330 feet from the north line and 330 feet from the east line of Section 17, Township 20 South, Range 24 East, S16M, Grand County, Utah.

Please be advised that insofar as this office is concerned approval to drill said well is hereby granted in accordance with the Order issued in Cause #2, on June 28, 1956.

As soon as you have determined that it will be necessary to plug and abandon the above mentioned well, you are hereby requested to immediately notify the following:

PAUL W. BURCHELL, Chief Petroleum Engineer
Office: DA 8-5771 or DA 8-5772
Home: CR 7-2890
Salt Lake City, Utah

This approval terminates within 90 days if the above well has not been spudded in within said period.

Please note that this approval is conditional upon a bond being filed with the U. S. Geological Survey.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

Dear Mr. White:

We are in receipt of your note that the W. & T. Oil Inc., is no longer in effect. We are a little confused as to whether the Quality Mud Company is a new name for W. & T. Oil Inc., or whether the Quality Mud Company has taken over all operations on your wells.

Would you please clarify this discrepancy and also advise us of the date this change came into effect.

Gentlemen:

On March 11, 1964, a \$10,000 lessee's bond with K-T Petroleum Corporation, 7313 Circlet Way, Citrus Heights, California, as principal, and your company as surety was filed in the Salt Lake City Land Office to cover operations on oil and gas lease Utah 018472-A.

K-T reentered a well on this lease, Glen Colusa No. 1, NE1/4 sec. 25, T. 42 S., R. 13 W., Washington County, Utah, and deepened the well to 6260', completing the operations on about May 3, 1964.

In reply to requests of May 8 and May 20, 1964, Roger G. Thomas submitted a Notice to temporarily suspend operations which we approved by letter of June 2, allowing until August 1 to resume operations. On August 18, we approved a notice of intention to deepen the well (commencing September 10), but to date there has been no operations on the well and the well remains unplugged.

By letters of October 9 and November 13, 1964, and January 5, 1965, we requested that K-T plug and abandon the well in accordance with the oil and gas operating regulations and to submit delinquent reports in connection with their operations on the well. As our requests to K-T Petroleum, Inc. have been unsuccessful, we request that you, as surety, take action to fulfill the obligations of the lessee. We request that the above well be plugged and abandoned at the earliest possible date as we believe that fluid migration and formation damage may be occurring. Copies of our November 13 and January 5 letters to K-T Petroleum were forwarded to your address on those dates.

A Notice of Intention to Abandon outlining the details of the plugging program must be submitted to this office and approved prior to commencing plugging operations. We are enclosing a supply of sundry notice forms (9-331) for this purpose.

Sincerely yours,

(OILG. SGO.) R. A. SMITH

Dear Rod:

Since August 1964, we have not received a Monthly Report of Operations for the above named well. We have in the past requested Mr. Charles Whyte to keep this Commission abreast of his activities with little or no avail. It would be appreciated if you could look into this matter and especially investigate the possibility of plugging this hole. Mr. Whyte has had ample time to complete this well and since it appears that he has completely abandoned the project and all concern for it, it is probably better to have it plugged.

After reviewing the electric log run on the well, the presence of hydrocarbons in commercial quantities could not be detected.

Thanks for your help.

Mr. Charles Whyte

Dear Mr. Whyte:

We certainly appreciate receiving your delinquent monthly reports and the perforating record from your well 1, NE $\frac{1}{4}$ sec. 17, T. 20 S., R. 24 E., Grand County, Utah, on Federal lease Utah 037442-A. As you are aware, these reports are due by the 6th of each succeeding month and we would like to have the reports when due. Failure to submit these reports may result in our recommending cancellation of your lease. We are enclosing a supply of form 9-329.

Now that your well has been perforated and the reports show that you are swab testing the well, you should submit the results of these tests. If the well is capable of producing hydrocarbons, it should be completed; and, if it is not, you should proceed to properly plug and abandon the well. In any event, it has been some time since we heard from you and we would like to know what your plans for the well are.

Sincerely yours,

P.S. Paul: Thanks for getting Whyte on the stick. The well is cased and we don't believe there is any sub-surface damage occurring. We probably won't force completion until the lease expires which could be as long as 11-1-71. Besides we've got to insure future job security!
